

CLEARANCE CHECKLIST

Have a complete understanding of these new European customs regulatory changes and how they will impact you and your customers

Ensure all Good Descriptions on your DHL waybills are complete, accurate and acceptable to meet the new requirements

Be certain your Commercial Invoice data is being electronically transmitted to DHL. Meet with any relevant stakeholders (i.e. your IT team to make this determination)

If you have any questions or are not yet providing DHL Express with complete and accurate commercial invoice data electronically, please contact your sales representative or the DHL Electronic Shipping Solutions Team to understand the options available and those most suited to your business.

Electronic Shipping Solutions options include:

MyDHL+

For one shipment or many, this is an online portal with a single login that allows you to import, export, track shipments anywhere, anytime.

MyDHL API & EDI

For large shipping volumes and multi-site logistics operations with shipping totally integrated into your existing global business processes.

EasyShip

Desktop Solution for large shipment volume, multi-national supply chains or companies with a central shipping function.

Express Logistics Platform (ELP)

Online Application for forward and reverse flow logistics (multiple legs shipment handling).

Emailship

A suite of reusable DHL forms and step-by-step instructions that have been specially designed to make shipping quick and easy by using only your email. Supporting limited connectivity.
